

**Jason Henderson,
Executive Vice President**

Operations

Jason Henderson was named Executive Vice President, Operations in November 2022 and is a member of Bell's Executive Leadership Team.

Jason leads the Operations organization and oversees manufacturing, including the assembly centers, Fort Worth Centers of Excellence (COEs), facilities, quality/Environment, Health and Safety (EHS) and Integrated Business Plan (IBP).

Previously, Jason was vice president of Assembly Operations, where he oversaw Bell's assembly operations for domestic and global facilities including Mexico, Mirabel, Canada, Amarillo and Piney Flats.

Jason began his career at Bell as a V-22 flight electrician in Amarillo and has held various positions in operations, military business, supply chain and flight operations over nearly 20 years. Under his leadership, the team in Amarillo achieved 79 on-time consecutive AH-1Z aircraft deliveries, reduced Cost of Rework, Repair and Scrap (CoRRS) on AH-1Z assembly line by 47% and recovered more than 15,000 hours on the V-22 program.

Jason received his bachelor's degree in aeronautics from Embry-Riddle Aeronautical University. He is an avid supporter of high school football in Texas, and he and his wife, are parents to four children: 1 daughter and 3 boys.

ABOUT BELL

Thinking above and beyond is what we do. For more than 80 years, we've been reimagining the experience of flight – and where it can take us.

We are pioneers. We were the first to break the sound barrier and to certify a commercial helicopter. We were a part of NASA's first lunar mission and brought advanced tiltrotor systems to market. Today, we're defining the future of on-demand mobility.

Headquartered in Fort Worth, Texas – as a wholly-owned subsidiary of Textron Inc., – we have strategic locations around the globe. And with nearly one quarter of our workforce having served, helping our military achieve their missions is a passion of ours.

Above all, our breakthrough innovations deliver exceptional experiences to our customers. Efficiently. Reliably. And always, with safety at the forefront.
